TECHNICAL SKILLS

Frontend Technologies: React Native, ReactJS, Typescript, NextJS, Node.js

Technologies & Tools: Azure, MongoDB, Amplitude, Git, GitHub, Sanity CMS, Vercel, Heroku, Jest, React Testing Library, Storybook, Formik, Jira, Notion, Elo, Datadog, SASS, Figma, Material UI

PROFESSIONAL EXPERIENCE

OBOS

Oslo, Norway

Fullstack App Developer

June 2026 - current

- Evolving and scaling the OBOS mobile app (React Native, Typescript) serving 640 000+ members, with focus on activation, engagement, and conversion
- Delivering fullstack solutions across mobile and web (React, Next.js), integrating backend services and Azure infrastructure
- Driving data-informed product decisions using Amplitude and experimentation (A/B testing) to optimize member experiences

CONVENE HOSPITALITY

Oslo, Norway

Fullstack Developer

June 2024 - June 2026

Flytoget:

- Built a React Native TVM app for 7M+ annual passengers, integrating VayaPay payments, printers, QR scanners, and CashGuard terminals.
- Developed backend services using Node.js and MongoDB, implementing APIs for payments, ticket data management, and system integrations.
- Developed a queue manager with Azure Functions for background processing and scalability.
- Implemented Datadog for monitoring and Amplitude for product analytics.
- Developed accessible, intuitive interfaces to streamline ticket purchasing for Flytoget.

Hospitality:

- Built React Native and Typescript check-in/check-out kiosks with 99.8% uptime, supporting multi-vendor lock system integrations (Saflok, Salto, Visionline, Onity, Vostio), Adyen payments, integrated with PMS and Android native modules for passport scanners and keycard encoders.

SKIWO AS

Oslo, Norway

Lead Frontend Developer

Aug 2022 - June 2024

- Drove the development of an administrator-centric platform, achieving 90% process automation.
- Optimized customer-freelancer communication for a network of 5,000+ freelancers, handling 15,000+ monthly orders through national contracts.

- Boosted test coverage to 90% with comprehensive integration tests, enhancing code quality and minimizing bugs.
- Played a key role in the successful migration of an app codebase from Vue.js to React.

RELEVANT PROJECTS

iBønn Admin Panel

- Developed a user-focused, scalable admin dashboard empowering mosque admins and super admins to manage content, users, and app updates for iBønn, with over 10 000 daily users.

iFaste Swift App

- Contributed to the revamping of iFaste, one of the largest Ramadan apps in Norway, helping users track their fasting times, access daily activities, answer daily quiz questions. During the fasting month, this app is used by over 20 000 daily users.

OTHER EXPERIENCE

A-Hus | Logistics Coordinator

May 2017 - Aug 2022

- Coordinated timely medical equipment deliveries for 200+ patients.

SATS | Certified Personal Trainer

June 2012 - May 2017

- Delivered over 2000 hours of personalized training with over 180 clients.

Securitas AS | Security Guard

July 2011 - June 2012

- Secured two shopping centers, resolving issues for 500+ staff in a fast-paced environment.

EDUCATION

UiA | Digital Media and Communication

2014 - 2015

- Specialized in WordPress development, SEO, and Photoshop-based UI design.

Oslo Nye Høyskole | B.Sc. in Nutrition Sciences

2015 - 2018

- Developed strong analytical skills with a focus on data-driven planning and public health.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900) Certified
- MongoDB Associate Developer Certified

ACHIEVEMENTS & ACTIVITIES

- Twice awarded Employee of the Month at Securitas AS from a pool of over 6,000 employees.
- Board Member, Bjørknes Høyskole Nutrition Study Association
- Contributed to a Tanzanian nutritional education project supporting UN goals for health and hunger eradication.
- Key contributor to three successful TEDx Oslo events' production teams.
